Dear Folks,-

Although it is over a week since I wrote you
mustn't think me lazy. I could not do a thing until the
holidays were over. It was an exciting time and it will
be a few days until I am fully recovered.

We had a fine time at Schumann Heink's on Christmas eve.
She had a tree and presents for us all. We staid
[stayed] until two and as it would have been pretty tough
to come out to my room, I staid [stayed] at the hotel.
We went to late mass next morning and to a magnificent
dinner in the evening. The next day (26) is also a
holiday. I was at Mr. Lesser's to dinner and with him to
the Theater in the

evening. The next day was Sunday with the usual excitement of music and late supper in a restaurant. During the next couple of days I recovered to a certain extent when along came New Year's Eve. That is the biggest night in Germany. Everyone is intoxicated and the scenes on the streets are shocking to a new comer. I was invited to supper in a German family and ~~staid~~ until one. Kate was at home all evening so I called for her and after visiting several cafés we arrived home at 4 A.M. It was rather exciting especially for Kate. New Year's day (yesterday) was at Mr. Lesser's for dinner, called on Marquardt

about four (the first time I had seen him since October) and at six went with Kate to the American Ambassador's. He receives the Americans on New Years. We staid about an hour, met the ambassador and his wife besides seeing a great many acquaintances, and looked on at the dancing. We ate supper in a restaurant and went to bed about eleven pretty well worn out. This morning I had a rehearsal with a 'cellist and played at a musical at Ganz's this afternoon. It went very well at least Kate thought I played fine. We left Ganz's at six and went to a tea until eight. At 8:30 we had supper and are now home for a couple of days rest, I hope. At the musicale this afternoon I talked along time with Mrs. Jessie Gaynor, principally about Dr. Simon. It is a shame I haven't written him for so long but I intend doing it this week. I wish Annie would go and see him for a few minutes and tell him about me.

Has Father McNamee mentioned the organ position in Evanston lately? For the first year I am home it would be fine to have a sure income especially as the concert playing will be pretty uncertain until I have some kind of a reputation. Get the Musical Courier of

Dear Folks,-

A letter which I started last week was lost, somehow, and between this and the last one I posted, the unheard of period of two weeks has elapsed. I hope you will have imagined that storms on the sea have delayed the mail and not have decided that anything has happened to me.

The past two weeks have been unusually quiet which means that I have studied more and not been out nights. Kate has been in Dresden all week which also helps to make less excitement.

Heard from Mary and Annie this week. The account of Mary's exam was funny. I suppose she is terribly put out.

The first term at the high

school saw me fail in algebra. I had played the whole time in school but was furious because I had always received good marks without any trouble. It took me a long time to recover from the shock but you bet I had the best marks at the high school for the next two years. Does Mary want to teach in Chicago? I should think it would be horrible.

Well, I have given the book-plates (is that what you call them?) to Mr. Lesser. He is delighted with them and well he might be for they are certainly neat. Last night he showed me one belonging to a friend of his who thinks his own are so beautiful but Mr. Lesser sees that they don't compare in taste to the ones Ann sent.

Last night he showed me one belonging to a friend of his who thinks his own are so beautiful but Mr. Lesser sees that they don't compare in taste to the ones Ann sent.

Was at Rosenthal's concert last week. He is the limit. I despise both him and his playing. Not a spark of feeling and about as much sense as a chicken. Heard Godowsky the night before who is also not a very serious musician but who has his redeeming qualities. His technique is uncanny. He played etudes for the left hand alone which no other pianist could have played with his two. But such display becomes tiresome and the last half of his program is always very tiresome. Then I heard Busoni the same week. He goes one step farther and plays like a musician—at least he can but is so eccentric that his playing is often amateurish. Too bad d'Albert isn't playing to complete the quartette. When he is in form his playing has everything. Then last but not least - Ganz. He played with orchestra Thursday night and did wonderfully. The hall was not full on account of the many big concerts that took place on the same evening, but he had a big success and has established himself in Berlin. Then I heard the great Max Reger play with a string quartette besides several young musicians. So I had something to do every evening although I don't call it being out. The concerts are over at 9:30 and as supper is at 7:30 or 8 you are home for the evening.

I have had some trouble at the Hochschule this week. You know every pupil must take piano lessons which means that although I am supposed to be an organist I can not escape a piano teacher. I didn't want to be untrue to Ganz so for the last four months I haven't showed up in the piano class and in fact never knew what my teacher looked like until this week. The directors got after me and I spent much time at the office making up excuses with out letting on that I have a piano teacher outside of the school. It finally ended by my promising to go regularly and Friday I went for the first time. The teacher's name is Heyman. He

The teacher's name is Heyman. He

is a very old man and not a bad musician. Of course I shall tell Ganz who will very likely laugh over it. I will manage somehow get out of these piano lessons.

Was at a concert at the Hochschule with Mr. Lesser last evening. We ate supper together afterward and gossiped until quite late. The picture of the Hochschule is still here. I shall surely send it this week. You might have it framed.

Kate will probably come to Berlin today on account of S. H.'s cancelling several concerts of this week. Must go to mass so adieu.

Sunday Eve.

Here is an example of bookplate. It looks rather inartistic in comparison to Anne's. This Dr. Hochfeld is a Jewish theologian so you see the inside of a synagogue on the card. I don't find it very nice that the name of the man is right under Ex Libris. Kate is just arrived and is quite enthusiastic over Dresden. I have been at Mr. Lesser's all afternoon.

Dear Folks,-

I cannot let the Kaiser's fiftieth birthday pass without writing especially as it is ten days since my last. Today is a great holiday - business is stopped, flags are out and the Kaiser's picture is in every window.

Celia's letter was the event of the week. I suppose she is not yet recovered from the effort. Are you really thinking seriously of moving to Chicago? I think for the present, it were the silliest thing imaginable. Of course it is pretty hard on Annie going up and down, but that may change soon. Annie is the only one whom it would help. Mother and Mary would detest it and I am sure

I would too.

Kate has been in Dresden for a week but I haven't heard from her. She probably heard the premiere of Strauss' 'Elektra' which took place last Monday. According to the critics, Schumann Heink sang very badly. It is a shame the way she is being criticised and most of it because she is such a great American. I am going to Dresden Sunday and stay two days. It is only two hours from Berlin. Kate has invited me for the trip and hotel bill so I shall see the pictures and probably go to the opera.

Last Sunday I heard the great actor Kainz in Julius Caesar. He is in Berlin for a few weeks and the people are beating each other over the heads with canes in the effort to get

to the box office. Of course Kainz is a wonder. The slightest movement takes your attention and his voice thrills you. I was invited which made it twice as good.

You have very likely noticed in the papers that Robert Hausmann the cellist is dead. He was found in a Vienna hotel dead from heart failure, caused, to a great extent, by nervousness over a concert which he was to give that evening. I knew him well on account of his teaching at the Hochschule. He was a fine man and comparatively young. It was a great shock to Berlin and the musical world which includes America as many of the cellists in the Boston and Chicago orchestras are his pupils. I was at the funeral which was very sad and attended by most of the Berlin musicians.

Had my lesson with Ganz yesterday. We are as good friends as ever but I see him only at the lessons as he is so busy. He is writing an opera which seems very interesting. I haven't told him about my piano lessons at the Hochschule as I think I can get out of them soon.

Are you still frozen up? It is pretty cold here and snow on the ground but my room is warm which is an improvement on last winter. I shall write again from Dresden and send a picture of the Sistine Madonna.

Dear Folks,

I intended writing in time to congratulate Delia on her 28th birthday but am a few days late as you see. Of course St Valentine's day is unknown in Germany but they know that it is Delia's birthday. It is surprising to note the high opinion the Germans have of Lincoln. There are editorials in all the papers that praise him as one of the greatest men we have seen.

I don't remember if we got any mail from you in the last ten days at least. You must all be very busy and I suppose there isn't much to

I don't remember if we got any mail from you in the last ten days at least. You must all be very busy and I suppose there isn't much to

write about. When a person does anything several times, it becomes common no matter how unusual it seemed at first. I am sure if you were here you would have much to write about for a short time but then suddenly nothing would be new.

I have been at home much this week. Kate was here and we used to go out early for our supper and come home right after. Kate is at the hotel today and goes to Vienna tomorrow. She is glad to have something to do as sitting around away from home is pretty bad.

Sunday I accompanied a violinist at a very fine party. It was at Frau Richter's, who is the daughter of Meyerbeer, and the principal society woman of Berlin.

There was a

great crowd of princes, ambassadors etc.
We went ^{there} about 10 PM. - after the dinner
and were supposed to do our turn and run
home. I also accompanied the same chap last
night at another affair which however was
not as gorgeous. But we were paid for it
so it is all right.

I have spent the whole evening at Mr. Lesser's.
First played for him then he sang - not
much of a voice but he knows everything.
Mr. Ganz is away for ten days playing
several concerts in southern Germany.
I have my next lesson the 16th.

Have been to very few concerts these
last two weeks. One gets a streak of
going every night then you can't bear to
hear a concert for some time.

The king and queen of England arrived in
Berlin today. There was great excitement
but I didn't have time to go down town
and see it.

We read in the papers that you are having
blizzards. We have fine weather now
and as spring is a month earlier here, it will
be warm in about two weeks.
It is getting late so I must finish this
here. Kate sends love. How is Tim?

The past week has been much the same as many others. Kate is in Vienna which means that things are quieter. Schumann-Heink's hotel is

a great rendezvous for gossipers and as Kate is down there every day, I hear much of it. Everybody gets knocked and scandals are discussed the whole time.

Mr. Ganz is home after a tour in Switzerland and South Germany. I had a lesson Tuesday. I'm invited to Ganz's for tea this afternoon but cannot go on account of my lessons at the Hochschule. There will be about 100 people there, among them Dr. Muck and Sinding. So many students are anxious to meet these great musicians but it has no attraction for me simply because they never remember you. Nine times out of ten they shake hands with you because it would look bad not to, but otherwise

don't notice you. And why crowd yourself up to them when they are trying to get away from people. Was at Mr. Lesser's for supper Sunday and played trios with two young men the whole evening. I don't see Mr. Lesser so often now on account of my many lessons at the Hochschule. I am there nearly every day trying to get the best of the great opportunities it offers.

Am studying something new now; partitur reading it is called which means orchestral scores. It is of course a tremendous study and the climax of musical knowledge. You must be able to transpose anything at sight and be able to hear the instruments in your mind. That means that you must hear a great deal of orchestral music and so I play the tympani in the school orchestra. Many of the students are anxious to do it but through Mr. Lesser I have the job all to myself.

It is not so easy as you think. To make this rumbling noise requires a loose wrist and the tuning is also difficult. Often you must change the pitch of the drums in the middle of the piece and must do it without being heard. Then the counting is hard. You may have fifty measures rest and it sounds like the devil when you come in wrong. I enjoy it immensely and learn a pile. The only way to know the

Dear Folks,

As you see I have the habit of writing only every ten days since Kate came. At home she never writes but here she keeps the post office clerks busy selling her stamps. Of course for the new comer there is lots to write about and as she hasn't anything to do she writes to keep from boring herself. She arrived from Vienna Friday and is living with me. It is much cheaper that at the Hotel and she likes to listen to my practice.

This has been a terrible week - nothing but snow. It must be a foot deep today which is an unheard of thing in Berlin. There are always signs of spring before the first of March.

Have had my lessons as usual both from Ganz and at the Hochschule. The lessons at the Hochschule are the most valuable just now as I need them more than piano lessons. In fact I need no more piano lessons as I have enough technique, but must work hard at composition. It is the thing to make me grow. Was at a couple of concerts last week but they were of no importance. I seldom go since I have started playing in the school orchestra. You can hear a certain amount of music and not any more. Saturday evening I heard Katherine Ruth Heyman play. She is an American so the American colony turned out. I like her playing very much - she can do more than most women. Some

way I have drifted away from the Americans in the last year. When I first came they were the only people I met and seemed to know - all but the stay nine months or a year and you lose them and you must meet the new ones. Then so few of them study seriously. They think by practicing ^{piano} the whole day they are doing the right thing with the result that they have no idea of music in general. Then from music students, no matter how talented they are, there is not much for me to learn. I can't talk music the whole time. Then again they are not the best Americans. Most of them are poor students from the west who have saved enough to keep them here a while and are probably away from home for the first time. Consequently they distinguish themselves at concerts and in street cars by their ignorance. It is much better to be in with Germans who live here and know more about the country. Received Anne's letter this morning. Kate and I aren't coming home together. The Hochschule doesn't close until the first of August and I can't leave until that time. Better to do things right while I am here then I will be ready to go home and stay. It is good I didn't go home last summer as the musical season has been unusually bad in America and I wouldn't have had anything to do. The pictures from Delia are cute. My you are all getting terribly fast! Lovingly Ted.

Wednesday was St. Patrick's day but we forgot it because it isn't known in Germany. I am afraid I have forgotten a few Emberdays etc., since I have been in Europe but Mrs Collins can start reminding me the first of August.

The first semester at the Hoch-

Schule ends this week. There is a two weeks vacation.

Spring has come with a rush just as I expected. Although the snow is still quite deep it was quite warm today and the streets were rivers of water. The German winter climate is so nasty. There is this dampness in the air that makes you shiver even when it is not freezing.

Mr Ganz has been in Berlin for the last month so I have had lessons regularly. I don't think he plays any more this year so he gives the whole time to the pupils. He goes to Switzerland with most of his pupils, the last of May.

They are going to live right in Lucerne for the three summer months. Of course they will have a fine time but Lucerne is fearfully hot and one has to be careful of eating too much. The first summer I was in Europe we were at Hertenstein, which is a half hour's walk from Lucerne, and the whole party was sick, this one today and the next one tomorrow.

There is a fascination about Switzerland which makes you wish to spend every summer there but although Joliet is not renowned as a summer resort I shall enjoy my summer there more than any place.

Kate sails in May and has begun counting the days. I think she has enough of Europe. Let this crazy letter do for this time.

Dear Folks,-

I should feel very guilty writing every ten days after making such a magnificent record for about two years except for the fact that I am coming home soon which is a better opportunity for telling the wonderful happenings of the past three years. It is a mutual neglect as a letter from home now-a-days is quite an event. Received a letter from Mary this morning which was really a shock. From the present outlook I leave from Hamburg the 18 of July on the President Grant.

From the present outlook I leave from Hamburg the 18 of July on the President Grant.

I haven't as yet arranged for passage because there was a chance of Schumann-Heink's getting me a cheap rate, but I guess that isn't to be counted on so I shall go to the Hamburg American Company this week.

Kate is getting ready for a concert at the American Embassy which promises to be a fine affair. I am going to an orchestra concert. About two weeks ago we had some pictures taken. Kate was very disappointed in hers as women are always, but I consider mine a good looking as the original. They are to be finished soon and you will get them right away.

The enclosed is finished badly but gives you an idea of what the rest will be. The other poses are cabinet size. I have one sitting and two with Kate. She wouldn't accept hers and warns you to not show the ones with me. I have no lessons at the Hochschule for the next two weeks but have plenty to do working for Ganz. He had a class lesson Tuesday at which I played.

Mary's concert must have been fine. I can see her rushing to get everything ready and then accompanying every number.

About a month ago I suggested very gently that I was coming to Europe next winter. I hope you won't think I am selfish but everything has just fallen into my hands and I haven't to worry about a thing. Kate will tell you in May and tell you about it - Mr. Lesser is backing me. Perhaps you are against it but I shall never have the chance again. But we can talk it all over when I get home. What does mother think of it? The next time I come we shall all come together.

Received Mary's and Annie's letters this week. The [Steind-Gunn?] incident is quite exciting. I am glad the back-room will be ready for me. I shall get up

at 5 and take a walk to
Rockdale or West Park
every morning. When do you
have your vacations? If Mary

changed much. I am just as thin as ever as you can see on the pictures I am sending. I may be a little taller but a precious little. However I don't worry about it like I used to, and think that very tall men are at a disadvantage.

Kate will be leaving soon - in fact next Saturday so she is quite excited. I would like to be going with her as we would have a fine time on board. I sail on the President Grant which arrives in New York about July 28. I am hoping it will be a good trip otherwise I shall be sick the whole time. Of course this is a fine time and the sea ought to be calm which it was in March 3 years ago. I am going first class, of course, but don't think of sending me any money. I have the money for the trip right now and enough to tide me over the summer when money is scarce. I am sending one picture of me - the ones with Kate are not yet finished. When Kate goes she will take several of each kind and you can give one to Miss Rogan, Fr O'Brien et al. Lovingly Ted.

Just arrived from my supper. I ate with Mr. Lesser at a restaurant not far from his house and we sat talking until 10 o'clock. The café and restaurant life in Berlin is so entirely different from ours that you can't imagine what it is like. For instance yesterday I ate my dinner in the garden of a restaurant. Tables were out as far as the sidewalk and on the fence were vines and pot-flowers. I am writing a string quartette which is going ahead very slowly on account of the many things I have to do and which take the composing fever out of me. I never know when I am able to write some until the moment is there and then I often have to do something else. When I come back to it after awhile my brain is a blank and I can't write one note. An idea comes like a flash of lightning and if you can't catch hold of it long enough to write it down it is gone forever. I am wondering what Kate will say about me. She knows about everything I have done in the last three years. I have begun a systematic study of German and I am sure when I come home I shall speak it as well as English. If I use funny grammar don't laugh. Lovingly Ted.

Blücher arrived in New York today so Kate

saw you the 6th as she had planned. She intended originally to stay several days in Joliet but I suppose she couldn't wait that long to see Lammie.

There must have been a great scene when she arrived so unexpectedly.

Schumann-Heink must be glad to get home too. That is a funny woman. She is a mixture of roughness and fineness with perhaps a little more of the first. But that is no wonder - for years she has not gone into society, if she ever went, and has come in contact only with bell boys, waiters, cabmen and train porters so she is

Of course she has her good points, is very
generous and will go through fire for any
one she likes. She was terribly nice to
me so I shouldn't complain.
I have been transferred to the big orchestra

Dear Folks -
I heard I wrote ten days ago and said I would write again 'tomorrow,' my intention was good but you see the result. I heard from Kate this week and was very glad to know that she wasn't sick. Hers is the ideal nature for traveling. She could not be sea sick if she wanted to be. I am sure if I crossed the ocean twenty times a year I would be sick every time. I am sure Mary would be too. Annie might stand it - Celia certainly would. I am very anxious to see how the German liners compare with the

Dear Folks, -

When I wrote ten days ago and said I would write again 'tomorrow,' my intention was good but you see the result.

I heard from Kate this week and was very glad to know that she wasn't sick. Hers is the ideal nature for traveling. She could not be sea sick if she wanted to be. I am sure if I crossed the ocean twenty times a year I would be sick every time. I am sure Mary would be too. Annie might stand it - Celia certainly would.

I am very anxious to see how the German liners compare with the

French. The latter are not very comfortable and anyway I don't like the French people. I nearly froze to death coming over - there wasn't any heating in the boat.

Today [Ascension Day] is a legal holiday in Germany. I am going to Mr. Lesser's for dinner. I was out in the country yesterday. Marquardt intended coming but somehow we missed each other. I was sitting in a Restaurant in the woods when Mr. Lesser drove up in a carriage. It was such a beautiful day he couldn't stay home - you know he is a man of leisure. There are no more concerts but I hear enough music at the Hochschule. The orchestra plays magnificently and the conductor is fine but I haven't, as yet, much routine and

am having a hard time with the kettle-drums.

Friday A.M.

Had to leave this yesterday to go to Mr. Lesser's.
Received the family letter this morning. It must have
been terribly exciting with Frank and Francis there
and then Kate's arrival. I can imagine Kate had much
to tell - too bad she had to leave so quickly.
The news about Carl Fallberg and Lois Davidson
was also very exciting. Carl's bringing home a
woman is not a surprise. 'Still water flows etc.'
I did not think he would get out of Germany
alone when he was here two years ago.

Had a harmony lesson this morning at Marquardt's. We are going to continue our walks in the woods which is fine for me. The fine walk and fresh air in themselves are just what I need and then the afternoon with him is as good as 10 lessons. Mr. Ganz leaves for Switzerland next Tuesday. I have one more lesson. It is too bad to see him go but I hope to be with him again next year. There are twelve pupils going with him from Berlin and several will come from Chicago for the summer. They will all live around Lucerne and ought to enjoy themselves. There is vacation at the Hochschule for five days at Pentecost. I shall soon start packing my trunk.

Dear Folks,

This is the newest stationery. It is terribly expensive and is only to be used on grand occasions viz. when you haven't any other. When you live on the fourth floor you often make the best of what you have as it is no fun to run out and buy some.

I suppose my letters won't be so interesting now that I will soon be on the heels of them. I haven't been to the Hamburg Amerika Line for a long time and must go this week to see if everything is in order for the 18th. I ordered my berth about two months ago and deposited \$25 (which is necessary) and since then haven't been there to find which one I can have. However, the agent told me there was plenty of time. It is fine that I am going in July. The high season begins August 1 on this side when the fares are much more. The steamer ticket is to cost \$15 which is about the cheapest first class

Although Mr. Ganz is gone I am as busy as ever. Am at the Hochschule nearly every day and it seems as if I spend more time at my lessons than at home. For instance - tomorrow I have three lessons; in the morning history of music and in the afternoon chamber music at Kahn's and theory lesson with Marquardt. In the evening I must go to see Mr. Lesser and so the whole day is gone. Mr. Lesser is very insulted when people don't visit him often. As he hasn't much to do he often gets tired of himself and, of course, is relieved when he has visitors.

I have had a very busy day. This morning at 10 I had a lesson in partitur reading, at eleven played with a violinist at a birthday celebration and at twelve was back at the Hochschule playing Bach Sonates with another violinist and. He practiced until two and after my dinner I had to be back for the orchestra lesson at 4. That lasted until six, from there I went to Mr. Lesser's Synagogue and practiced ^{on the organ} until 8:30. So I am just in from my supper although it is 10 P.M. Meals are two hours later here than at home.

The orchestra lesson was very interesting. Max Bruch conducted an oratorio of his own composition. It sounds big for me to be able to say I played the tympani under Bruch's directing. However it was through an accident that I played today. The regular tympani player came late. I have lost my position until after next week. The opera house is closed for the summer so the other fellow has time to come to the Hochschule and will stay until Saturday. Then I will play until I go home. It is a great education for me to play in the orchestra. Pianists as a rule haven't the faintest idea about the orchestra and it was a lucky chance that let me play the drums which is the only position the pianist can fill.

Received Anna's letter this morning and yesterday one from Kate. She has been sick which accounts for her not having written. It is a torture to write on this paper and as it will probably be a bigger one for you to read it I better save you more trouble.

Monday evening I went to the opera.

There is a special season of 6 weeks during the summer when the roles are sung by out of town artists. Almost every night there is a new cast and conductor. Monday the 'Meistersinger' was performed. The great Mottl conducted. You remember I heard him conduct once last winter and wrote you about it. He is a marvel. I watched him closely and noticed how he gave every musician in the orchestra and on the stage his cue. He watched the singers especially and actually directed their acting. All the while he managed to follow the notes and turn the pages. Every movement meant something. At the end he was given a great ovation - the people cheered and the trumpets gave three salvos.

Tuesday is orchestra day at the Hochschule which means that I played the kettle drums yesterday. It is great sport especially now as I have some routine and am not so worried. The old timpani player is delighted to get out of it. He has played for forty years so you can understand why he is a little blasé. He gets paid for it even when I play and on orchestra days either goes fishing or comes to the school and sits in the cantine [bar].

I love to do it, it is so different from anything I have ever done, so I tell him to stay away and he is glad to oblige me.

I have excused myself from the last two composition and organ lessons. The school doesn't close until Aug. 1st and I leave Berlin the 17th of July.

Today [Wed.] I play chamber music at Kahn's. Did you know I accompany his wife? She sings a little and cannot play so I earn 5 Marks an hour. I have so little time I can go only once a week so that doesn't mean much money, but they are fine people

Dear Folks,-

This letter is probably ^{too} slow in coming to suit your worrying natures but I could not find any time to write yesterday. Both Mr. Tewksbury and Kate met me at the train. Everything is O.K. so I shall be able to send you a few tomorrow when I am sure not to have any more expenses here. Everything has been fine since I left. Father O'Callaghan forgot his breviary, though, and I was afraid he would worry about it. However the stenographer on the train wrapped it up beautifully and sent it back at Elkhart the first station. So Fr. O'Callaghan had it that same evening. The train ride was magnificent although, as usual, I didn't sleep any. We arrived in New York on the dot - saw Kate first and in about a minute Mr. T. came up hardly knowing me on account of my having grown so much! He took Kate and me around in his car while I did a few errands for Mr. Ganz. Then Kate and I went on the ferry over to the Jersey side to meet Schumann Heink who was on the way to Philadelphia to sing for a gramophone company. She seemed glad to see me and we had a fine talk coming back to New York on the ferry. She advised me to see the captain and ask him for even a better cabin than I have and if he does it 'she will send him her picture'. Kate and I had lunch together and about 2 I went up to Mr. Tewksbury's she going back to Singac. After a short talk Mr. T. ordered his car and we donned cap, coat and

This morning Mr. T. had several purchases to make and I went around with him. He bought a magnificent box of fruit and sent it to the ship for me. By the way, I saw the 'Deutschland' lying in dock all polished up ready for tomorrow. Then we went out to Mrs. McKeon's, Mr. T's sister, for lunch. She lives at Hemstead on Long Island which must be 30 miles from here and we went out in an hour. It is a fine road covered with autos but you bet we took nobody's dust. We are back only a few minutes now and there is nothing on the program for an hour or so. Kate will be here in a few minutes and will probably stay for supper. Mr. Tewksbury just gave me two seats for the Metropolitan to-night, (we were at the Manhattan last night) one for Kate so we shall most likely enjoy ourselves. Mr. T. will take us to the boat tomorrow morning and then the excitement will be over and I shall get a rest - if the sea is calm. Otherwise---
Hope you have written me to the steamer. I'll write again tomorrow if the pilot will take it off at Sandy Hook.

Dear Folks,-

It is only today that I am able to catch my breath a little and write. From the moment I left home I traveled via fast trains and fast boats and that shakes one up. Yesterday everything trembled and I was sure that the earth was vibrating just like the ship, but today everything is solid.

There is not much to tell you about New York outside of what I wrote from there. It was a beautiful visit and I saw a great deal of New York. Mr. Tewksbury is a little old fashioned and would bore me in the long run but for a few days he couldn't be nicer. He never mentioned my former affairs nor did he say anything about helping me. But that is nothing - his help would be only a burden, in fact I wouldn't want any one to do anything for me just now.

I hope you received the postal I wrote on board. One worries for the safety of the mail when the pilot takes down the little packages and rows off to his steamer. The voyage was very quiet and for that reason very good. The first couple of days were very cold but we soon came into the gulf stream and it became warmer each day. You know when the weather is clear one can see across the channel. The examining of the trunks at Cuxhaven was very tiresome - it took at least an hour. The train arrived in Hamburg at 5:30 and there was a train for Berlin at 6:18 so I had to hustle to get my baggage transferred. Arrived in Berlin at 11:30 and got into my room just at 12. My landlady was of course in bed but got up and seemed glad to see me. Yesterday I was pretty tired but managed to visit Mr. Ganz and Mr. Lesser and get some of my things unpacked. I did not tell Mr. Lesser I had the picture as I was afraid it might be injured. But I took it out of the trunk today and it is as good as when you put it in. I am going to him this evening and can bring it with me. This morning I was a Goldberg's for a moment. I didn't tell them either about their presents because one of them has a birthday Thursday and I'll bring them then. Fräulein Müller

was delighted with the doily.
Berlin is as beautiful as ever and the air is
so pure and fresh it is a pleasure to walk. It must
be the burning of soft coal that makes Chicago so
dirty. In New York hard coal is burned and the
air is perfectly clear.

I have not seen Edna Peterson yet but probably shall
tomorrow. Mr. Ganz said she improved wonderfully
this summer. He was very enthusiastic about his
vacation but missed me the last couple of weeks,
especially, as there was no one there to make
mountain trips with him. He had twenty pupils
most of the time and looks well in spite of it.
Mrs. Ganz also looks very well - in fact she
gets younger looking every year but is also
becoming fatter which is a bad sign. Roy has
grown much bigger and is even cleverer and
bolder than he used to be. He plays the piano like
a chap of 15 and makes remarks that would
stun you. He used to lisp but has overcome that.
He will soon be 7.

Mr. Lesser had a fine vacation and is looking
very well. It is so interesting to hear him tell of
the king of England. Edward VII goes to Marienbad
and without any train or court pomp. Mr. Lesser
used to see him sitting on a bench every morning.

Dear Folks,-

Now that I am settled and am having my lessons regularly the time will start running and Monday will come around every few minutes.

First of all did you see my criticism in the 'Courier'? If not read it immediately or if you can't get it (the issue about the 20th of Sept) I can send it to you. It is the worst roasting any musician ever got and is a taste of what I shall have to fight to ever amount to anything in America. It has certainly injured me not only there but here where it is read extensively. Mr. Ganz wants me to write to Mr. Ryder telling him to get after that woman but I'll not make it that strong. Don't talk about it to a soul nor don't think of talking about the writer of it. Such things must happen and they must die out and be forgotten. I never see the Courier but Mr. Ganz showed this to me at my lesson last week. It is the first blow of that kind I have received and it will probably not be the last for you know

if you are in the swim you must expect to get soaked. It is really so flattering that she went into detail and tore me into little pieces - she might have done as much harm in a few lines or simply by knocking my head off. Tell me if there was anything in the Leader. Have been to only one concert worth mentioning this week - the first Philharmonic concert - it was great. Sunday afternoon I sang in the chorus at Kahn's. (Celia is expected not to laugh). Of course I know that there are better voices than mine but in a chorus of forty it doesn't sound bad and anyway the principal thing is that you are able to read by sight. The singers are mostly amateurs and friends of Kahn. They are very fine people and the rehearsal becomes a social affair with tea etc. In the evening I was at Mr. Lesser's. He sang (a voice much like mine) the whole evening. This morning I was at the Hochschule for a few minutes. It all looked perfectly natural - the same pupils, teachers and door-keepers as were there last year. But it is a fearfully dry place - the students are thick-headed and lazy.

and on account of its being a royal institution there is no fear of competition. This makes the teachers indifferent and the pupils conceited but on the other hand there is no sign of business or money making on the premises, it is purely artistic.

Nicoline Zedeler plays tomorrow evening and but that I must go to a concert of one of Mr. Lesser's proteges I should surely go and hear her. The poor youngster - I feel so sorry for young musicians giving a concert in Berlin, it is such a thankless task and they must give out so much hard earned money. They seldom sell any tickets. As indeed, they are delighted if a few people will condescend to come on free tickets. There were at least one hundred concerts announced in the papers last Sunday and there are that many new ones every couple of weeks. The concert management is compelled to hire men to take in the money. The poor musicians who make such a brave face and haven't a sou!

Dear Kate,-

Mr. Lesser and I were delighted to get your cards. It was nice that you thought of him and of course he isn't through talking about it yet. I have still a couple of addresses which you must learn from memory and be polite and send them cards right away. The first one is Frau Professor Robert Kahn and be sure and ~~not~~ write the 'Frau Professor.' You know Kahn gives me composition lessons at his house for nothing which is a tremendous favor.

It will be nice if you write the card to Mrs. Kahn - she remembers you well and only the other day introduced me to some one as 'your brother.' They live at Kaiserin Augusta str 57. Then Mr. Ganz, Lutherstr 26. He is nicer than

ever to me and you know what that means.

No need to tell you to advertise him as much as possible (he is going to America next year) for you have always done that but it would be a fine thing to send him a card once in a while and tell him if his songs have success.

Then one more - send Mr. Lesser something for Christmas. A little calendar, a silver lead pencil or anything to let him know you remember him. You cannot imagine how the Germans appreciate little attentions like that. Just before leaving last summer I wrote to two of my teachers at the Hochschule saying 'good bye?'. They received me terribly cordially this fall and I am sure will be nice to me the whole winter just because I did that. You will have to do these things for me because you are the only one in the family these people know and it is the only way I have of showing them that we appreciate what they are doing for me, you know you made a big hit with them and then too they are happy as children when they get a picture of a skyscraper or something which doesn't exist in Germany. Of course they think the Americans are crazy but are mighty interested in the country.

Dear Folks,-

Of course you are anxious to know if I am completely recovered from my sick spell so I must tell you right in the beginning that things are going on as usual and I am able to start my lessons feeling much better than ever. A sick-spell has its good sides; as I lay in bed feeling miserable and thinking of the time that was being lost, my nerves relaxed and my mind had a rest from the usual strain of my many lessons. Lying in bed weakens one but one gets up with a tremendous appetite and gains a couple of pounds a day. I spent several days in my room after being able to be up as the air is very raw and I was afraid of catching cold. The day after my birthday Mr. Lesser called for me in an automobile. I put two overcoats and several mufflers on and went to his house for dinner. He brought me home that evening and I felt none the worse for the first excursion. He came the day before that and wanted me to come as it was originally planned to have me spend my birthday there, but it snowed and I was afraid to stir out. I felt stronger every day and went to a concert last night. It was a performance of the b minor mass of Bach by the Philharmonic chorus. I left after the Credo as I did not wish to be out late the first night. The chorus was immense and was supported by the orchestra and organ.

Lying in bed weakens one but one gets up with a tremendous appetite and gains a couple of pounds a day. I spent several days in my room after being able to be up as the air is very raw and I was afraid of catching cold.

The day after my birthday Mr. Lesser called for me in an automobile. I put two overcoats and several mufflers on and went to his house for dinner. He brought me home that evening and I felt none the worse for the first excursion. He came the day before that and wanted me to come as it was originally planned to have me spend my birthday there, but it snowed and I was afraid to stir out.

I felt stronger every day and went to a concert last night. It was a performance of the b minor mass of Bach by the Philharmonic chorus. I left after the Credo as I did not wish to be out late the first night. The chorus was immense and was supported by the orchestra and organ.

It seemed queer to hear the Gloria at night and to see the people sit up at the Et Incarnatus and then a storm of applause after the Credo. But the mass is so difficult it could not be sung by a church choir and is too long. The Kyrie lasts at least a half hour.

Mr. Ganz has been in Switzerland for two weeks. I received a card from him from Zürich this morning. It must be fine to make such a concert tour and visit Switzerland. In America you are jarred to pieces by the fast trains and travel sometimes a couple of days without a rest, but ~~at~~ here the trains take their time and the distances are not very long.

It has suddenly become winter here. Every morning there is ice on the street and the youngsters are having a great time sliding. It all happened while I was sick and was a big surprise. It never becomes as cold as at home and seldom snows.

Received Mary's letter yesterday. It is too bad about St. Mary's choir and a scandal that that beautiful organ is used so seldom. What ever you do don't have anything to do with it - let Father McNamee get Nellie Sexton or Bessie Lennon. Anyone will suit him provided it doesn't cost much. It will look as though you schemed to get Tony out who really has little tact but

I received an announcement of Loretto Lennon's wedding. It was nice of them to send it and I'll write them immediately. Does Annie see Miss Peterson often? I have not seen Edna for a long time. She is taking good care of herself so as to be in trim for her concert. I shall not play in Berlin this winter although it seems every one is giving a concert. Most of them are unwise in doing it for they will not be noticed and must give their good money out just the same.

Mrs Ganz's concert is postponed indefinitely. It was given out that she is sick but the poor thing was really so frightened that her voice left her. She has not sung for years and is fearfully nervous anyway so she probably did right in refusing to sing. Of course it is a big loss - Mr. Ganz told me there was a fine house and of course the hall and other expenses were paid in advance.

I wrote to Carl yesterday. I feel sorry for him and Miss Sjostet. They will have a hard time making a living. It is really tremendous how America has changed in a musical way. A few years ago a musician made piles of money and it was no trick to get engagements. Now it is almost as difficult to get

along there as in Europe. I am sure I would have scarcely anything to do if I tried to make my way there now. All the well known musicians in Europe are flocking there and are crowding the young ones off the earth. I tell you I would like to get a good position at the Chicago Musical College. They pay well and advertise these people to perfection. The last day I was in Chicago I went to see the Ziegfelds and was talking to the Doctor and one of his sons. They have engaged a pianist from Berlin, Anton Foerster, but I am afraid he will not make a big success. Mr. Lesser told me he doesn't amount to much.

Mr. Ganz has his first class lesson next Thursday. I would like to play but can not on account of not having practiced any for two weeks. He arrived in town this morning and I intend going to see him tomorrow.

As a matter of course I have nothing important to write about on account of not being anyplace. I am invited to several parties next week and will tell you about them next time I write. Be sure and write Mr. Lesser a Christmas letter. Lovingly, Ed.

Dear Folks,-

I generally write on Monday but this time it is Thursday. It seems when Monday is gone the whole week is lost and as I am again up to the ears in work I haven't time to count the days and from Monday to Monday seems like one day. It is the old story of how the time flies and with no outlook of arriving at anything.

I had a piano lesson this morning - the first one since I have been sick. Mr. Ganz teaches from 9 to 2 every day and I have my lesson generally at 9. With his 33 pupils and his own work he has nearly enough to do. Yesterday I visited Mrs. Ganz and played for her. It seems in the last year I have drifted away from them completely. Of course the first year in Europe I was completely green and Mr. Ganz had to take care of me and so I saw him almost everyday. But now it is different; I have a circle of friends among the Germans and as I speak the language and know the country I am able to do everything myself. Then he is very busy and I don't dare run up and see him anytime I feel like it.

Dear Folks,-

I generally write on Monday but this time it is Thursday. It seems when Monday is gone the whole week is lost and as I am again up to the ears in work I haven't time to count the days and from Monday to Monday seems like one day. It is the old story of how the time flies and with no outlook of arriving at anything.

I had a piano lesson this morning - the first one since I have been sick. Mr. Ganz teaches from 9 to 2 everyday and I have my lesson generally at 9. With his 33 pupils and his own work he has nearly enough to do. Yesterday I visited Mrs. Ganz and played for her. It seems in the last year I have drifted away from them completely.

Of course the first year in Europe I was completely green and Mr. Ganz had to take care of me and so I saw him almost everyday. But now it is different; I have a circle of friends among the Germans and as I speak the language and know the country, I am able to do everything myself. Then he is very busy and I don't dare run up and see him anytime I feel like it.

Of course Mrs. Ganz is not so busy and so I go and see her once in a while. It would be terrible to have Mr. Ganz think I was indifferent in the face of his giving me lessons for nothing; the other pupils pay their good 30 Marks an hour. Mrs. Ganz is a keen critic and I can learn a lot by playing for her often.

I have not seen Mr. Lesser for several days. I seldom go to a concert with him as indeed I don't go alone either. I find that it is much better to stay home evenings; I sleep better than when I come out of a magnificent concert so excited that I think of it the whole night. It is too bad to cut out all the beautiful concerts but it will pay in the end. I can go to the Philharmonic concerts which take place every two weeks and are on Sundays at 12, and to the concerts in the opera house which are at noon on week days.

I was at two parties this week - Tuesday and Wednesday and enjoyed myself immensely both evenings. Wednesday was an engagement - I accompanied a violinist and was paid for it besides having a good time. I am a little tired today and shall be glad to go to bed early to night. I had a letter from Mr. Tewksbury this morning. He is grand to me of course, and I am mighty glad. Kate did me a good turn in giving him two tickets

Kate did me a good turn in giving him two tickets

for Schumann-Heink's concert in Brooklyn. He was there with a friend and was delighted. He is going to the Philippines next month to be gone about a year and says he will send me some post cards. Of course he reads the Courier and saw my criticism which however didn't make any effect on him; he tried to explain to me how it was overdone etc., hoping to cheer me up - as if I thought twice about the thing. Mr. Ganz informed me this morning that the said lady is not with the Courier any more. Mr. Hubbard wrote me c/o Mr. Ganz saying how sorry he was not to have heard my recital; at the time he was in the Orient and my letter was forwarded to him at Yokohama. He was in Berlin for a day about three weeks ago but missed seeing Mr. Ganz.

Received Ann's letter a couple of days ago. The account of Charlie's doings was great. The fellow is bad but hasn't horse sense. He could be much worse if he were sly. Don't worry about his humiliating you. Every family has some trouble and for that reason no one can say anything. No one can be

accountable for another's doings and as you all can look any one straight in the face, you have nothing to worry about.

I played in the orchestra at the Hochschule Tuesday for the first time since I have been sick. It seemed fine to be back in old time form and beat the drums so as to nearly burst the skin on them. There is a new director at the Hochschule - a man of great energy and almost American enterprise. He has a concert every week and has everyone in the neighborhood of the school flying.

Kahn is too nice to me; he has me for an extra private lesson every Monday afternoon and when I come Mrs. Kahn must run and get a lunch for me.

I have just come from my organ lesson; my old teacher is very nice but an old-fashioned professor and he rather bores me at times. I don't have much time to practice the organ so my lessons aren't extra well prepared.

I was interrupted by my pupil - a young chap who has a lesson with Ganz every two weeks and one with me. I am what you would call preparatory teacher for Mr. G. I must hustle and get this off so you won't worry your heads off. Lovingly Ed.

Dear Folks,-

It is wonderful when I think that today is the first of December. It seems like last week that I stepped off the 'Deutschland' at Cuxhaven and started a new year of work. Why Christmas will be here before we know it and then Spring and Summer.

Received a letter from Mary this week. I read about the mine catastrophe at Spring Valley and then how 70 of the miners saved themselves by building a wall under the earth and living there 8 days with nothing to eat but chewing tobacco. There were long articles about it in the German papers; the Germans say that the way these men saved themselves was typical American and it could only happen in America.

It will be nice if Kate can be home for Thanksgiving. Mr. Lesser and I wrote her a card last week c/o Wolfsohn. Traveling like she is, must be interesting for a while but frightful in the long run. One hasn't time to collect himself until one is in another part of the country seeing new things. Of course I suppose

Dear Folks,-

It is wonderful when I think that today is the first of December. It seems like last week that I stepped off the 'Deutschland' at Cuxhaven and started a new year of work. Why Christmas will be here before we know it and then spring and summer.

Received a letter from Mary this week. I read about the mine catastrophe at Spring Valley and then how 70 of the miners saved themselves by building a wall under the earth and living there 8 days with nothing to eat but chewing tobacco. There were long articles about it in the German papers; the Germans say that the way these men saved themselves was typical American and it could only happen in America.

It will be nice if Kate can be home for Thanksgiving. Mr. Lesser and I wrote her a card last week c/o Wolfsohn. Traveling like she is must be interesting for a while but frightful in the long run. One hasn't time to collect himself until one is in another part of the country seeing new things. Of course I suppose

Kate is so blasé that ~~any~~ ^{every} town is the same to her and as she is a powerful eater and can fall asleep at any time and under any conditions, it is not so hard on her as it would be on one of us. A year ago tonight Schumann-Heink gave a concert in Berlin; I remember it perfectly - Mr. Lesser and I were there and ^{we} were quite pleased with Kate's appearance. After the concert we all had supper together.

I was at Mr. Lesser's Sunday. There was an old violinist there who was concertmeister at the opera house for 30 years. He is about 70 now and deaf as a post. In spite of that he would play a sonata with me and I had a time of it. In the first place he tuned the violin much too high and then ^{as} he could hear neither himself nor the piano I had to do some jumping. There were quite a few people there and of course they were amused.

I went to a concert at the Hochschule a few nights ago. It was the first concert I have heard for a long time; I mean an Evening concert - Sunday noon I was at the Philharmonie and heard Busoni as Soloist. Some way I have lost my respect for

him. A few years ago I thought he was a god and could not think of any pianist who could compare with him, but now I think he is silly. Of course he is still Busoni and knows as much as any of them but he has become so eccentric and does the most amateurish things. He is a fearful poser and in this line makes a typical Italian impression. Yesterday was the orchestra lesson at the Hochschule. I have quite a little routine now and feel quite at home demolishing the kettle-drums. We have had awful weather the whole month of November. It has snowed or rained nearly every day and snow in Berlin is most disagreeable thing you can imagine. Snow at home is beautiful; it is cold and dry and the fresh air makes one lively, but here the snow is always mixed with cold rain and the snow may be a foot deep and it is still warm enough to make everything wet. That was the kind of weather we had when I got out of bed after my sick spell. Had it been fine I could have gone out the first day but I had to hang around in my room for several

I haven't received the socks yet but about two weeks ago had a letter from the post office authorities in Washington telling me to send fifteen cents for postage. The package was at the dead-letter office and will be here this week. It appears funny there should not be enough postage on it for you would surely not ship a package without asking a post-office official if it were all right.

I wrote to Karl lately and to Mr. Schager. If you see Carl tell him to write me I intend to write to Dr. Moody and to Dr. Simon this week.

Dear Folks,-

you are to be envied with your spring weather. We have had winter since the first of November with frozen windows every morning and heavy black clouds the whole day. When a stray ray of sunlight does happen to break through for a moment everyone runs to the window to see it. The gas is lit at 3:30 in the afternoon and put out about 8:30 in the morning. But the weather cannot be of any account to anyone living in a big city. Even if a beautiful day should come I haven't time to enjoy it - that is to go walking in the country - you must go so far before you really are in the country that the whole day is taken up. But in the country it is fine when you can go out of the house and step into a woods or open field.

Too bad I haven't anything exciting to tell you; for instance like last time when I conducted the orchestra. But such big events take place very seldom; this really was a big event for when I conduct at any future time I shall have to think about that first time. I am anxious to see how it will be the next time - if I shall feel more at home or be just as excited. There is a two weeks vacation at the Hochschule at Christmas time but I think I'll

yesterday afternoon was class lesson at Ganz's. Only three pupils played - two young men besides myself. I played some pieces by Brahms and the others played Beethoven Sonaten. Mr. Ganz was quite pleased and said it was a red letter day for me. In the evening I went to a party which lasted until 2 a.m. I didn't have such a good time as there were many older people there, and the principal amusement was dancing which I cannot do.

This morning I went to the symphony concert in the Opera House. Strauss was in fine form and conducted magnificently. A new symphony by Count Hochberg was performed. He is one of the principal figures in Berlin society and composes on the side. I have my doubts when a society man composes and they increase to fears when he is a noble. The symphony was of no account and was hissed. Strauss was furious as Hochberg is a friend of his and formerly manager of the opera. I don't think it was right of the people to hiss for Hochberg did so much for the opera in Berlin - spent the best years of his life

working for it, and then in his old age to receive such a nasty reception was cruel.

This afternoon was the last orchestra lesson until Jan 4. The next two weeks will be a great relief and I shall have a chance to recover from the overdose of lessons and be fresh when the school opens again. I have lessons every day and hardly time to prepare them not to speak of time to digest all I hear.

Jamieson is probably coming to Berlin soon. I have misused the poor fellow worse than ever lately. He wrote about two weeks ago asking me to advertise for a studio and find a use for him as he wants to live here for a couple of weeks, but I never moved to do it and never answered his letter. So tonight he telegraphs me from Nuremberg begging me to telegraph him why I don't write and if I have found the studio. His plans are all upset just through my negligence. Of course I have been terribly busy lately and didn't have the time to run around, and had so much on my mind without that, that I let it drop purposely. He has some friends here for which I am glad for I haven't the time to entertain him. He may not come at all after my ignoring him so.

I hope you won't spend much money on Christmas presents. It is a foolish custom. Above all I hope you haven't sent me anything.

Dear Folks,-

It is over a week since I wrote but the Christmas holidays are not to be counted. On those days it is impossible to do anything and it is terribly tiresome here because they celebrate three days. The feast begins at six o'clock in the evening on the the day before Christmas. Promptly at six all the Christmas trees are lighted, the family assembles around it, sings 'Holy Night' and distributes the presents. The Germans stick the tree in front of a big window so when you walk down the street you have a row on either side. It is pretty and gives a Christmas spirit to things. Of course every family has a tree according to their means: that is a rich family has a big tree and a poor one a tree sometimes a foot high and with two candles on it. If an old man lives alone he has a little tree all for himself. 'Every family' means every Christian family; the Jews are fearfully against it. They had a big feast about a week ago and there was great lighting of candles and singing of responses at Mr. Lesser's and in all Jewish families. They wouldn't allow their children to have a tree even if the youngsters were dying for it.

Jamieson arrived suddenly last Sunday; I didn't expect him as he telegraphed me from Jena 'what was the matter' and I was still too lazy to go to the telegraph office. In spite of the fact that I hadn't advertised for the studio he was bound to paint my portrait so the following day we walked around and after much trouble found exactly what he wanted. We are in the middle of it now; I have sat five times - 2 hours every morning - and shall sit a week longer. It is fearfully tiresome and I'll see that I never get into such a thing again but this time I shall stick to the finish. A friend of Jamieson, Mr. Poole, arrived a few days ago and intends copying in the National Gallery for a few weeks. He'll go to the Opera last night - 'Faust' was given.

All the presents arrived and a great array they made. The cuff-buttons are beauties - plain and heavy, which means a great deal. Mary gave me a pair about 25 years ago and I have them still but it is great to have two pair to be able to change off once in a while. It was a great idea of Ann's to send me the pocket book - every man should have one for visiting cards etc., so I feel quite manly. Delia's ties also arrived in perfect condition. I suppose she worries
